

Introducing the latest style from Drawknife - The Mountain Modern

Spring is the season for everything to become new again. With that in mind, Drawknife has chosen this time of year to introduce another product line.

Ever since we brought out the American Prairie Collection, we have received several requests for billiard tables in the more contemporary, drop-pocket style.

After building a few variations in the American Prairie style, we began looking at creating a new table design that would incorporate the idea. The result is the new Mountain Modern Group,

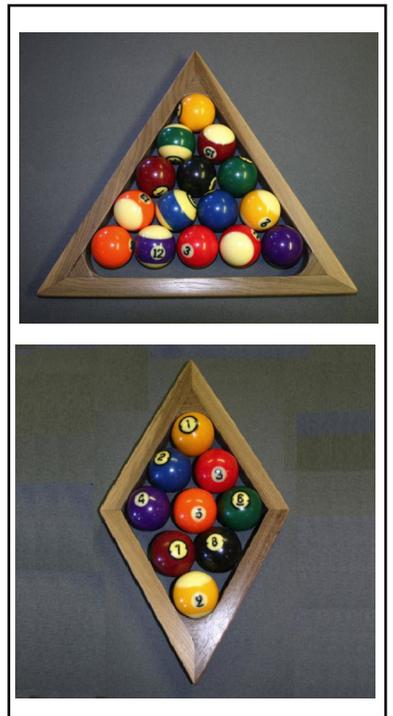

With clean lines and slimmer legs, this style is able to fit into a variety of mountain lodge and lake cottage environments. The finish can be smooth or distressed, depending upon client preferences.

This line will be built in Knotty Alder, but could also be built from other wood types. Call us for prices.

With Foosball, Air Hockey, Shuffleboard, Poker and, of course, Billiard tables in several styles, Drawknife Billiards can assist you in designing the perfect family game room. to please both adults as well as young people.

Designer Newsletter Spring 2016

All game tables and accessories will be available in this new group. Pictured below are game set-up ball racks for both 8-ball and 9-ball, as well as a custom cue rack, which has been modified to hold a shorter cue.

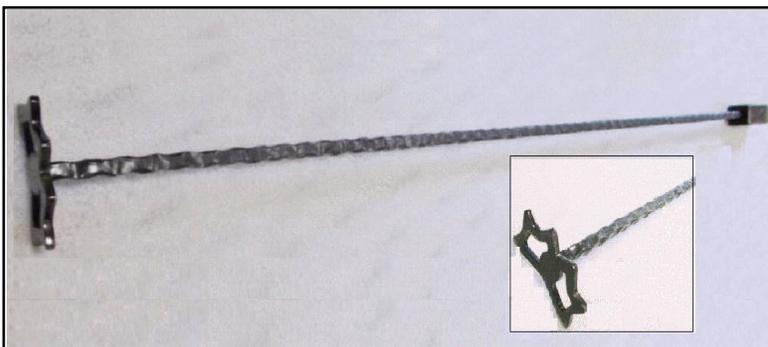

Keep Game Accessories Accessible With Custom Hooks

Recently, Drawknife has begun offering custom wrought Iron accessory hooks as a convenient way to store the bridge and triangle, but to also have them available during a game. They can be easily attached to the billiard table by the installer, (see pictures on next page).

The hooks and other custom accessories and trim details are available for the new product group as well. Let us know if you have any special requests.

Drawknife offers different styles of Accessory Hooks to coordinate with the table model as well as other accessories and trim details.

Customize Your Game Tables With Metal Accents

Drawknife Billiards will work with you to create the perfect game room for your clients. As we have added new styles to our product lines, we have also looked for ways to allow our clients to create their own style by adding custom details to their game tables.

Some of the more recent additions have been to add metal clavos in a variety of shape and sizes. Shown below are two of the more popular styles that have been used on a few of our billiard and shuffleboard tables.

Clavos can be ordered in several finishes with the most common ones being aged pewter and gun metal. Certain styles and finishes may require an additional charge.

Call us for details on these or any of the other items in this newsletter.
