

Gallatin (above)

This is our most traditional table with a design that can bring rustic elegance to almost any décor. Each leg of the Gallatin is paneled on all four sides – giving this table a distinctive three-dimensional appearance. The inset vertical rectangles in the legs are detailed with beetle-tracked quarter-round log trim, stained in a contrasting color to enhance the design.

Firehole (below)

An elegant, but simple design gives the Firehole a true rustic elegance. Shown in the Burl style, this Firehole features a rare assemblage of hard-to-find burl accents and medallions. This beautiful table is an exceptional combination of man's craftsmanship and nature's unique art. The Firehole design is also available in Standard and Wilderness models.
